

NSPT CONSENT STATEMENT

Consent 1: for NSPT data collection, linkage and sharing with evaluation.

Provider statement:

Have you read the background information and do you agree to provide additional information for the National Trial data, for that data to be linked with the routine data collected by me [service provider], and for the University of Melbourne researchers to access the linked dataset? The dataset will not include your name or any other identifying information.

Client response options:

1: **Yes** [the client has read the background information and agrees to provide additional information for the National Trial data, for that data to be linked with the routine data collected by me, and for the University of Melbourne researchers to access the linked dataset.]

2: **No**

Consent 2: sharing contact data for the Consumer Survey

Provider statement:

Do you agree that your contact information, including your minimum dataset identifying number, can be provided to Strategic Data so they can invite you to participate in the consumer survey?

Client response options

1: **Yes** [the client agrees that their contact information, including their minimum dataset identifying number, can be provided to Strategic Data so they can invite them to participate in the consumer survey.]

2: **No**

3: **N/A** [the client refused consent for NSPT evaluation]

Notes: Provide Background statement to client (see Appendix A)
